

POLICY

of the Integrated Management System

People – we want to be a workplace that inspires to reach one's best potential.

Products – we want to design and offer quality lighting products that anticipate and satisfy customer desires and needs.

Partners – we aim to build lasting partnerships by continually developing, improving and maintaining a proven network of customers and suppliers.

Environment – we want to be a responsible company whose products have a positive impact on the environment.

Profit – we want to maximize long-term profit for our shareholders.

Workplace safety – we provide safe and sanitary working conditions to prevent work-related injuries and health conditions by eliminating hazards and reducing HSE risks. We take action with our employees, consulting with them on changes.

Our Company's Mission is: We exist to bring light to people.

Taking into account the context and objectives of the organization, we undertake to continuously improve the Integrated Management System and to meet the legal and other requirements applicable to us.
